

1ST GRADE: FEBRUARY NEWSLETTER

Math- We will be working on numbers & operations in base ten. Students will develop an understanding of whole number relationships and place value, including grouping in tens and ones.

Reading- Learning About the World-Reading Nonfiction. As we continue with nonfiction reading the students will learn more about tackling hard words in order to keep learning. Another focus will be to encourage students to read aloud like experts.

Writing - Nonfiction Chapter Books. In this new unit, students will become teachers on a topic they know a lot about. The students will progress toward writing chapter books, which gives them the opportunity to work on structuring in their texts.

Social Studies - We will continue investigating communities. We will explore problems communities face, and who can solve those problems. We will learn about the responsibilities of citizens and how they solve these problems.

1ST GRADE: FEBRUARY NEWSLETTER

Science - We will continue to investigate light. We will work on exploring shadows and discovering what makes a shadow. We learn how to block light, designing and explaining a way to make an area dark.

TC Phonics - In this unit the students will continue to work on syllables and snap words to help tackle longer and trickier words.

Fundations - We will be working on “glued sounds” in our next units (ang, ing, ong, ung, ank, ink, onk, unk) Make sure to review your letter sounds every day!
