

Dear Parents and Guardians,

May 2021

- ❖ In April we listened to songs that talk about who WE are and who I am. We talked about how bullies will be in everyone's life and we need to say NO and tell ourselves, "I am beautiful." We added BODY to our long list below. Be SAFE, POLITE, COOPERATIVE, RESPONSIBLE and KIND towards someone's **name, language, skin color, country, culture, ability, gender and someone's BODY.**
- ❖ Talent Show: anyone that was accepted into the talent show was sent an invite to a Google Classroom class and will record new videos and post onto flipgrid.
- ❖ I am very proud of the success of Mr. Barnes as he has been teaching all music classes. We are working together to make him the best music teacher for his future students. If you have any feedback we would love to hear it to help him even more!

3rd, 4th and 5th graders have been working on amazing skills that teach them about being a producer in a music studio. Students have been working on techniques that famous music producers use. Please take advantage of this free program! Ask your child to show you what they have been working on because you will be pleasantly impressed with how professional their work looks and sounds. <https://www.soundtrap.com/>

Kindergarten, 1st and 2nd graders continued to work on their keyboarding skills of both hands. They are now going to be learning about the orchestra and all the instruments that they will hopefully be able to see and play when they get into the upper grades.

We are in the home stretch. Let's finish this year strong.

Sincerely,
Mr. Ramsingh
