We are in our regular routine and learning has begun. For all grades the class starts off with breathing exercises, Social Emotional Learning and overall awareness and wellness of our minds and bodies. We listen to a "song of the day" that gets posted on Google Classroom and we engage in conversation about the song (if you have song suggestions, please email me). Then we sing our school song and begin our lesson.

Students in K-2 have started learning how to play keyboards using Music and The Brain curriculum. Grades 3-5 have been using the keyboards to learn chords to try playing "Light Up Your Mind."

Please join my Google Classroom.
