

Dear Parents and Guardians,

March 2024

Happy March!

Thank you all who attended the 4th and 5th grade Spring Concert. It was amazing to see the passion and talent of our students all on one stage. Please tell your children how proud we are of them because it is not easy to get on a stage in front of hundreds of people and perform.

During this month we are hearing music created by female musicians from the 1950's through present throughout the day as our bell tones to switch classes. I will share a compilation of all the bell tones we have heard throughout the month on Google Classroom. Feel free to listen further at home.

Even though we are learning and celebrating throughout "Women's History Month," I pose this question to my students, "Would it be fair if I only played music by female musicians during the month of March?" We all agree that would not be fair! We need to continue to celebrate women musicians and history everyday of the year.

I am looking for music that represents our school community to share in my class. Any suggestions feel free to send a link to ARamsingh@schools.nyc.gov

As always thank you for all your support.

["Light Up your Mind"](#)

["I will"](#)

["Pick It Up"](#)

Sincerely,

Andrew Ramsingh
